

Twist It, Bop It, Pull It...Reduce It?

Managing Risk and Liability with Pre-Departure Orientation

What's the goal?

- Reduce risk and liability in relation to campus travel using orientation information

How?

- Use Terra Dotta software's functionality to deploy information to travelers prior to them leaving campus
- Today, we are going to take a look at how you can leverage content that already exists in the Terra Dotta Community Library to get started

TDS features to mitigate risk

- Travel Registration
